

# Fireaway

## New Rules

Waitin' in line for a miracle  
Get your head out the clouds, boots on the ground  
When did we get so cynical, so cynical?  
Woah, oh, oh  
Hey now, hey now, what you gotta prove?  
Hey now, hey now, what you gotta lose?  
Oh, don't gotta be so difficult, so difficult  
Woah, oh

And if there's somethin' on your mind

Fire away  
Say what you want  
Say what you're feelin' night or day  
Don't be afraid  
Just fire away  
Shout it out loud for the people at the back  
Don't hide away  
Just fire straight from the heart

Fire away, fire away, fire away, eh, eh, eh  
Just fire away, fire away, fire away

Don't build it up, just let it go  
Take all the weight right off your shoulders  
Shake it off like it ain't there at all, like you don't care at all  
Woah, oh, oh, oh  
Hey now, hey now, what you gotta prove?  
Hey now, hey now, what you gotta lose?  
It don't gotta be so difficult, so difficult  
Woah, oh

And if there's somethin' on your mind

Fire away  
Say what you want  
Say what you're feelin' night or day  
Don't be afraid  
Just fire away  
Shout it out loud for the people at the back  
Don't hide away  
Just fire straight from the heart

Fire away, fire away, fire away, eh, eh, eh  
Just fire away, fire away, fire away

Hey now, hey now, what you gotta prove?  
Hey now, hey now, what you gotta lose?  
What you gotta lose?

Fire away  
Say what you want  
Say what you're feelin' night or day  
Don't be afraid (Don't be afraid)  
Just fire away (Ooh-ooh)  
Shout it out loud for the people at the back  
Don't hide away

Just fire straight from the heart

Fire away, fire away, fire away, eh, eh, eh (Go on, fire away)  
Just fire away, fire away, fire away  
Straight from the heart
