

# Ghost Town

## New Rules

Got my attention, my new obsession  
Made me feel like I just died and went to heaven  
But did I mention, you do my head in  
It's the way you use your body as a weapon

Tell me are you out there?  
I can't figure out, yeah, what's on your mind  
And tell me how your feelings  
Wound up disappearing overnight

I-I-I'm feeling stressed out, upside down  
My heart's a ghost town when you're not around  
I-I-I'm running out of ways to tell you that I need you now  
Ahhh  
I'm feeling locked down, got no way out  
My heart's a ghost town when you're not around  
I-I-I'm running out of ways to tell you that I need you now  
Ahhh

An empty bottle, a waste of time  
That's all I am without you in my life  
Every second turns to days, only way I can be saved  
If you call me up and come over tonight

Tell me are you out there?  
I can't figure out, yeah, what's on your mind  
And tell me how your feelings  
Wound up disappearing overnight

I-I-I'm feeling stressed out, upside down  
My heart's a ghost town when you're not around  
I-I-I'm running out of ways to tell you that I need you now  
Ahhh  
I'm feeling locked down, got no way out  
My heart's a ghost town when you're not around  
I-I-I'm running out of ways to tell you that I need you now  
Ahhh

Stressed out, upside down  
My heart's a ghost town
