Mountains

New Rules

If you wake up with me tomorrow
I won't let you down tonight
So set 'em up and knock 'em down until we do this right

I'll give you my heart to borrow
Don't look down, just close your eyes
We're on the edge and soon we'll fall straight off the other side

'Cause we'll climb these mountains
And jump from the top
We'll dance on the tables
Forget who we are

Just for the free fall
Just for the free fall

When you lie with me like this
You make it so hard to leave
So far to fall, don't let me go unless you come with me

And when it gets darker
Darker in the afternoons
I'm gonna make up the life we lose

'Cause we'll climb these mountains
And jump from the top
We'll dance on the tables
'Cause that's who we are

Oh, we're only good for
Whatever they say we are
So we'll climb these mountains
And jump from the top (Jump from the top)

Just for the free fall
Just for the free fall

We'll be safer on our own
Our own, our own, our own
Be safer on our own

Just for the free fall (Free fallin')
Just for the free fall (Free fallin')
Just for the free fall (Free fallin')

We'll climb these mountains (Oh-oh)
And jump from the top
