

# NOPE!

## New Rules

I'm on your string  
You're pulling it  
You love it cause I say nice things to ya

You roll your eyes  
But you blush a bit  
It's just enough to make me think

That you like me like I like you  
Way you're looking at me like you're feeling it too  
I know you know what you're doing when you're leaning in to me  
But every time I try to get close

You're like nope  
You say see you later when I say hello  
You ask me to come over then you're not at home  
We stop before we even hit go  
Yeah every time I try to get close  
You're like nope  
I bring you flowers but you leave them in the cold  
We talk for hours and the next day you're a ghost  
Swear you got me doing the most  
Yeah every time I try to get close  
You're like nope  
You're like nope  
Nope  
Every time I try to get close  
You're like nope

I'm on my toes  
You keep me guessing  
You change your mind just like the clothes you're in  
You think that I  
Would've learned my lesson  
Ain't giving up cause I got a suspicion

That you like me like I like you  
Way you're looking at me like you're feeling it too  
I know you know what you're doing when you're leaning in to me  
But every time I try to get close

You're like nope  
You say see you later when I say hello
