

# Done with You

New Years Day

Fell face down  
Hit the ground  
Because of someone like you  
I've become  
Become so numb  
I am done with nothing to lose

When I taste your name it's like dirt in my mouth  
I'll say it out loud and spit you out  
What kills you make me stronger

This wasn't part of the deal  
Pretending to feel  
I'm not indestructible  
My heart doesn't heal  
It's colder than steel  
Now I'm untouchable  
Cuz it hurt like hell I'm not bulletproof  
The pain and the damage you put me through  
Now I feel  
Nothing cuz I'm done with you

You built us up  
Then tore us down  
Turned paradise to a ghost town  
Your mark of shame  
Can't rinse away  
This aftertaste of the mistakes

When I taste your name it's like dirt in my mouth  
I'll say it out loud and spit you out  
What kills you makes me stronger

This wasn't part of the deal  
Pretending to feel  
I'm not indestructible  
My heart doesn't heal  
It's colder than steel  
Now I'm untouchable  
Cuz it hurt like hell I'm not bulletproof  
The pain and the damage you put me through  
Now I feel  
Nothing cuz I'm done with you

What kills you, makes me stronger

When I taste your name it's like dirt in my mouth  
I'll say it out loud and spit you out

And spit you out

This wasn't part of the deal  
Pretending to feel  
I'm not indestructible  
My heart doesn't heal  
It's colder than steel  
Now I'm untouchable

Cuz it hurt like hell I'm not bulletproof  
The pain and the damage you put me through  
Now I feel  
Nothing cuz I'm done with you
