

I'm No Good

New Years Day

I've got a smile like cyanide
My insides are cold and bitter
I'm no good at regret, proud to be such a mess
I wear it on me like a scarlet letter

You fit like the perfect crime
Now my pain will be your problem
I told you that I'm no good, you think I'm misunderstood
Now heaven isn't ready lets raise hell
Heaven isn't ready lets raise hell

Danger
You'll never make it out alive
You know I'm so dramatic
And it's quite the habit
You know I won't let go
Danger (danger)
You know you'll never stand a chance
I tried to warn you
Like the ones before you
You know I won't let go

I've been burned here once or twice
Revenge always makes it better
I'm bored and your just a fix
A heart to throw in the ditch
With all the hearts that I've stolen before

This is just entertainment
With a mind so sick and twisted
Depraved sadistic torture
It's like you'll never even see this coming
Heaven isn't ready lets raise hell (lets raise hell)

Danger
You'll never make it out alive
You know I'm so dramatic
And it's quite the habit
You know I won't let go
Danger (danger)
You know you'll never stand a chance
I tried to warn you
Like the ones before you
You know I won't let go

You know I won't let go
I will creep behind you while you sleep
And before the blood drips off the sheets
I'll wake you up so I can hear you scream!
I wanna hear you scream!

Don't say I didn't warn you

Danger
You'll never make it out alive
You know I'm so dramatic
And it's quite the habit

You know I won't let go
Danger (danger)
You know you never stand a chance
I tried to warn you
Like the ones before you
You know I won't let go

You know I can't let go
You know I can't!
