

# It's Alive

## New Years Day

Out of our minds  
With madness in our eyes  
What was once beautiful

Is this the end  
Will we see our love again

Woh oh oh  
How did I know  
This would be our bed  
Woh oh oh  
Where did it go  
How could it escape  
We created a monster  
And it's out of control  
Oh my darling what have we done

It hurts to know  
We're better off alone  
Our stitch was poorly sewed  
Unraveling

Is this the end  
Will we see our love again

Who oh oh  
How did I know  
This would be our bed  
Who oh oh  
Where did it go  
How could it escape  
We created a monster  
And it's out of control  
Oh my darling what have we done

How could we let it get away  
There's only one thing left to say  
It's alive  
It's alive  
It's alive

Woh oh oh  
How did I know  
This would be our bed  
Who oh oh  
Where did it go  
How could it escape  
We created a monster  
And it's out of control  
Oh my darling what have we done

We created a monster  
And it's out of control  
Oh my darling what have we done
