

# Nocturnal

## New Years Day

I like the high I get inside  
The way I feel when I'm intertwined  
It blows my mind every time  
It's all I want tonight

There are some things worth the wait  
When the light dies and fades away  
There are some things I can't explain  
There are some things I just can't explain

It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal  
It's in my blood, my bite  
My dark side becomes divine  
We're all nocturnal  
If you wanna know me turn out the lights  
If you wanna know what keeps me up at night  
It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal

I come alive when the moon is high  
Sends a chill up and down my spine  
I kinda like the ritual  
I lose all self-control

There are some things worth the wait  
When the light dies and fades away  
There are some things I can't explain  
There are some things I just can't explain

It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal  
It's in my blood, my bite  
My dark side becomes divine  
We're all nocturnal  
If you wanna know me turn out the lights  
If you wanna know what keeps me up at night  
It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal

There are some things worth the wait  
There are some things I can't explain  
It's in my blood

It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal  
It's in my blood, my bite  
My dark side becomes divine  
We're all nocturnal  
If you wanna know me turn out the lights  
If you wanna know what keeps me up at night  
It's in my blood, my bite

My dark side comes to life  
We're all nocturnal  
If you wanna know me turn out the lights  
If you wanna know what keeps me up at night  
It's in my blood, my bite  
My dark side comes to life  
We're all nocturnal
