

# Your Ghost

New Years Day

A shallow grave  
Where you're buried underneath  
But don't drag me with you  
A mistake  
That's been clawing at my skin  
And I can't dig you out  
Is it wrong  
That I question myself-control?

Your ghost stands between what I know  
And what I'm missing something isn't right  
I've been wasting so much god damn time  
Put me out of all my misery  
Pull the trigger let me know what's real  
so I can start again and learn to feel

I fought so hard to push away all these tempting flaws  
It's too late to conquer them again  
What held me back in the end  
The fear of never knowing what's ahead  
I'm sick of disappointment

The bitterness is overwhelming  
And nothings gonna change around me  
If I don't get rid of you  
I wanna shove the wicked words you told me  
Down your fucking throat and let it sink in  
I kill off what's left of you

Your ghost stands between what I know  
And what I'm missing something isn't right  
I've been wasting so much god damn time  
Put me out of all my misery  
Pull the trigger let me know what's real  
so I can start again and learn to feel

So unfortunate it's come to this  
And I played my part  
Don't waste your breath with selfishness  
You're done enough harm

Your ghost stands between what I know  
And what I'm missing something isn't right  
(Something isn't right)

Your ghost stands between what I know  
And what I'm missing something isn't right  
I've been wasting so much god damn time  
Put me out of all my misery  
Pull the trigger let me know what's real  
so I can start again and let to feel
