

Banshee

NewDad

You only see her in the daylight
Might catch a glimpse at night
And in the shadows you scream and shout
It's messing her up that she's still messing about
And wasting her time
Thinking that she's in her prime

Why are you so enthralled by it?
The danger that you put yourself in

And she said I don't want to feel in it
Because I don't think that I can fix this
So I'll keep pushing all my innards
Because I don't want to feel in it

And I don't want
To know about the horrors in your head at night
But I hear them through the walls
Hear the shadows stream and call
And I'm scared of you
Scared of everything you do

Why are you so enthralled by it?
The danger that you put yourself in

And she said I don't want to feel in it
Because I don't think that I can fix this
So I'll keep pushing all my innards
Because I don't want to feel in it
