

Cry

NewDad

Did you cry for me?
Because I cried for you
And now my head hurts
But my heart feels much worse

Please let me
Dream of you
It's all I have
It's all I wanna do
It's in my dreams you never run away
And you tell me you are here to stay

Did you cry for me?
Because I cried for you
And now my head hurts
But my heart feels much worse
Did you cry for me?
Because I cried for you
And now my head hurts
But my heart feels much worse

I'm on my knees
Begging please
Light a candle and pray for me
Because I want for you to want me
And I only have one wish not three
I wish you needed me

Did you cry for me?
Because I cried for you
And now my head hurts
But my heart feels much worse
Did you cry for me?
Because I cried for you
And now my head hurts
But my heart feels much worse
