

# Heavyweight

NewDad

Try to be  
The best you can be  
Never mind  
The days you're unhappy  
Put on your face  
Regret your mistakes  
And don't forget your place

Try to lead  
By example  
Said to me  
You can't be fragile  
Take it on the chin  
Repent your sins  
Then scrub your skin

So you can throw me into deep water  
And tell me it'll make me stronger  
You throw me to the waves  
Then act surprised when I need to be saved

It's a heavy weight  
On a frightened face  
But I can't complain  
When it's just a game

Try to be  
A little colder  
So they know  
They can't take over  
But don't be cruel  
Make sure your cool  
Be the latest news

The lights went out  
They won't be found  
Not safe or sound  
But I stay devout  
You killed the joy  
I felt the void  
So I made some noise  
Like a wind-up toy

So you can throw me into deep water  
And tell me it'll make me stronger  
You throw me to the waves  
Then act surprised when I need to be saved

It's a heavy weight  
On a frightened face  
But I can't complain  
When it's just a game

So you can throw me into deep water  
And tell me it'll make me stronger  
So you can throw me into deep water  
And tell me it'll make me stronger
