

I don't wanna see you but I still do
And I don't wanna hear about you
And I don't wanna know you but I still do
And I don't wanna sing about you

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly

And when I see you out you want to know me
But when I see you around you just ignore me
And when I call your name you never answer
But when you call mine I act like it's fine

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly

What do you wanna show me
You're way over there
And you walk so slowly
