

# Father of Love

NewSong

We face evil foes who deliver their threats  
Bombarding our lives with words of fear and death  
Satanic attackers, destroyers of men  
Engaged in a war that they never can win, oh...  
Let's not be tempted to use earthly power  
It will only be used against us  
We can bring evil down, for we hold higher ground  
When we trust in the one who defends us

Let the Father of Love  
Be our strength from above  
We are strong when we yield to His way  
When we walk in the light  
We can battle the night  
Trust His power to protect us each day  
Lay our weapons down  
Our victory is found in the Lord  
None can destroy love  
It lasts forever  
We are the soldiers  
The soldiers of the Father of Love  
The soldiers of the Father of Love

The ruler of darkness in this world is strong  
But no match for the Christian with God's armor on  
Ready for combat, His word in our hearts  
Able to stand against all fiery darts, oh...  
Be wise as a serpent when you face our foe  
It's not flesh and blood we are fighting  
We are destined to win this war that we're in  
So be bold, in Him we are mighty

Let the Father of Love  
Be our strength from above  
We are strong when we yield to His way  
When we walk in the light  
We can battle the night  
Trust His power to protect us each day  
Lay our weapons down  
Our victory is found in the Lord  
None can destroy love  
It lasts forever  
We are the soldiers  
The soldiers of the Father of Love  
The soldiers of the Father of Love
