

Alright

Newton Faulkner

I would love to say
It'll turn out fine
I would love to say
You'll get everything you want
And I would love to say
You'll find love
And I would love to say
Your hero'll turn up
Just in time

What if it's not gonna be alright?
What if it's not gonna be alright?

I would love to say
I couldn't love you more
And I would love to say
That darkness won't
Outweigh the light
I would love to say
You'll find love
And I would love to say
Your hero'll turn up
Just in time

What if it's not gonna be alright?
What if it's not gonna be alright?
What if it's not gonna be alright?

I still see it my mind
Even though I've closed my eyes

What if it's not gonna be alright?
What if it's not gonna be alright?
What if it's not gonna be alright?
What if it's not gonna be alright?
