

## Cage

Newton Faulkner

Come round every morning  
Singing the same old song  
Find another reason to hold on  
But when it's gone it's gone

Bury your head in the sand, hoping  
That it won't last too long  
How you ever gonna be happy  
Somewhere you don't belong

We either stay where we are  
Or we break all the bars of our cage

Cage, cage , cage, cage

No more waiting around  
Can't wait for one day  
There's whole world outside  
Why you hanging around here  
Waiting for someone  
Else to come and change your life  
I know, it isn't easy  
But I'll always be on your side  
No matter how hard you try  
There's no stopping

All the weight of the world  
Yea it's weighing you down  
All the baggage you carry and carry around  
And I know sometimes it's hard to believe, yea  
It's better to have loved and lost and paid the cost

We either stay where we are  
Or we break all the bars of our cage

Cage, cage, cage, cage
