I Need Something

Newton Faulkner

I need something to believe in
Cause I don't believe in myself
And I'm sick and tired of getting nowhere
Guess it will all work out

And I don't mind anymore
And I don't mind anymore

And I need someone to put my trust in
Cause I entrust in myself
I'm scared of failure so scared of success
I guess it will all work out

And I don't mind anymore
And I don't mind anymore

I need something to believe in
Cause I don't believe in myself
And I'm sick and tired of getting nowhere
Guess it will all work out

And I don't mind anymore
