

She's Got the Time 2

Newton Faulkner

Driving down the street, there's a girl on the corner
In the sunshine, I'm gonna wind down the window
And say hey hi how's it going?
How's she gonna take it God knows

She's got the time but she still doesn't give it to me
She's got the time but she still doesn't give it to me

Flying to LA with my sound man, bass man, drum man I'm tired wa
nna go to bed man
20 guitars a metal plate in my arm
Oh God no

She's got the time but she still doesn't give it to me
She's got the time but she still doesn't give it to me

Sipping on my drink back stage after party
I guess the champagne's OK try to be friendly
I say hey do you wanna canapé?
She says NO

She's got the time but she still doesn't give it to me
She's got the time but she still doesn't give it to me
She's got the time but she still doesn't give it to me
She's got the time but she still doesn't give it to me
