

And So On

newworldson

Alone is just a state of mind
There's people all around
The whole of humankind
Everybody's got someone who loves them and someone that they love too
Even if it's just one person, one and one makes two

If love is what'cha what'cha need, sow another seed
If love is what'cha what'cha need, sow another seed and so on..
.

Degrees, I heard this said before, that we're separated by six
but I think it's only four

Everybody's got someone who loves them...

You're chasing paper painted green
I'm chasing portraits of the queen
It's not the same as giving people what they need
