Our relationship is incredible
It's a miracle that we met

My soul trembles, my body I'm numb, it'll collapse in just one second
I want to tell you that you could save my life
You are my destiny
I feel more and more of these crazy feelings
You're like the air that I breathe, ah

We can overcome it, you are waiting for us
One step closer to paradise
The mountain we are climbing, the horizon we can see
I believe our sun will rise

Time to stop, you're closer
Let's engrave the moment
Shaking, emotions
Even now I can't believe

This must be a miracle
Now here with you

I felt it when I looked into your eyes
Every night I wish it was tonight
Because I want to be here with you

After everything
I'll tell you I love you
And it's so beautiful, you know
It's a miracle, a miracle

My vision is blurry
The battle situation keeps turning
Oh, baby, baby
But it won't go away my fire
Now I can see it
In a little while I reach
Oh, baby, baby
Desire to move toward you

My dreams come true
Reality here and now
All my sensibilities are now awakened
I can touch you, love you, hold you
And graduate from fantasy

Time to stop, you're closer
Endless moment
Overlapping, emotions
Even now I can't believe

This must be a miracle
Now here with you
I felt it when I looked into your eyes
Every night I wish it was tonight
Because I want to be here with you

After everything
I'll tell you I love you
And it's so beautiful, you know
It's a miracle, a miracle

The time on the clock
Passes too quickly! Tomale!
Beyond time and space, to the other side
Beautiful magic
More than suspense, stay here
I don't want to wake up in a dream world
Shine so high
Uninterrupted feelings one more time

Baby, this must be a miracle
Now here with you
I felt it when I looked into your eyes
Every night I wish it was tonight
Because I want to be here with you

After everything
I'll tell you I love you
And it's so beautiful, you know
It's a miracle, a miracle
