

I'm Gonna Fly

NF

Yeah

You ever have one of them days

When you wake up and you wish you could just forget about everything

Throw the pain away for just one minute?

Look at the sunshine instead of the rain

You know what I mean?

Smile

I was driving down the road today

And saw the sun shine through my window

It made me smile

Yeah, I ain't done that in a while (that in a while)

Yeah, I saw a rainbow up in the sky

It made me wanna grow wings and spread them and fly

I could if I tried to

Listen, I bet the birds in the sky do (the birds in the sky do)

Sometimes I see the rain coming up out in the clouds

I could care less, let the rain come down on my face

Wash the pain away (wash the pain away)

See, I don't like the feeling of loosing control

But at least for one moment, I'm gonna let things go and just be myself

Spread my wings and yell (wings and yell)

I'm gonna fly

I don't care what nobody says

And I don't care what nobody thinks

I'm gonna fly

Forget about everything else and put a smile on and just be me

I'm gonna fly

Forget about the tears in my eyes for a moment, leave it behind me

I'm gonna fly (yeah)

Yeah, I'm gonna fly (I'm gonna fly, yeah)

I was driving down the road today and saw the rain fall on my windshield

It made me sad

But then I laughed (then I laughed)

Cause everybody knows it's gonna rain

So it won't feel so good if I never felt pain

I like that sound

But when I look around (I look around)

I see people just like me

Sitting down with the pain, trying to follow their dreams

And I get lost in the moment

In case you haven't noticed

Everybody wants love, but I don't know where to find it

So I wrote a song as a little of a reminder

Just be myself

And nobody else

I'm gonna fly

I don't care what nobody says

And I don't care what nobody thinks

I'm gonna fly

Forget about everything else and put a smile on and just be me

I'm gonna fly

Forget about the tears in my eyes for a moment, leave it behind me

I'm gonna fly (yeah)

Yeah, I'm gonna fly (I'm gonna fly, yeah)

This is my moment
So I'm gonna do my best to control it
I feel like I'm walking through a door that has never been opened
What's on the other side
I don't have a clue where I'm going
To be honest, I could care less if anyone knows it
I put on a smile
And bolt my feet through the door
All of a sudden, I don't feel the pain anymore
For some reason, I feel like I'm apart from the ground
Like every pain that I'd ever felt is off of me now
Must be flying or something
Whether I'm up in a cloud
Look at me, wow, well this is kinda freaking me out
Must be a dream
Either way, I don't wanna come down
Like the feeling of feeling like I've no longer been bound
Turn around for a second
I look back and the door shut
Maybe I should go back, but I don't know for what
Come on Nate, you must be losing your mind
Maybe so, but here I go
Follow me up to the skies (singing)

I'm gonna fly
I don't care what nobody says
And I don't care what nobody thinks
I'm gonna fly
Forget about everything else and put a smile on and just be me
I'm gonna fly
Forget about the tears in my eyes for a moment, leave it behind me
I'm gonna fly (yeah)
Yeah, I'm gonna fly (I'm gonna fly, yeah)
