

# PANDEMONIUM

NF

Something special 'bout me, you can already tell the energy is different  
Confidence is at the highest level, I don't ever see it dipplin'  
Try me if you wanna, guarantee though you goin' wish you hadn't did it  
That's a war that you could never win, but hey, I like the optimism

Given over half my life to this, I think I made a good decision  
Trust my gut I hear it talkin', then I know it's time for me to listen  
Mastermind consistent, matching my commitment, that's not realistic  
Aye, feature presentation what they came to see, I open up the curtain (Whoa  
)

Oh my, pandemonium it's showtime  
Got they noses up, I know why  
Jealous of me, 'cause the flow nice  
Did it all without a cosign  
Shoot I always hit the bullseye  
Barely even put an effort in this, effortless imagine if I did try (Whoa)

Acknowledge me or not  
That don't really make no difference to me I  
Operate the same no matter who's around me  
Who's around me is important to me I  
Keep my enemies at arm's length but  
Close enough to make me feel safe my  
Diligence can't be competed with an easy win for me, this just a small taste  
of (What)

What I'm capable of doing with my talent  
Stretching my imagination watch it turn a  
Small idea into something that you have to (What)

Tip your hat to when you see it, the whole package  
Ain't got nothin' missin', check off every box it's  
Unavoidable at this point don't you act like (What)  
You don't see me out here makin' waves  
I gotta air about me, I don't play the game the way they want me to, they te  
ll me take a left I take a (What)

Right, I'm not the one to pick a fight with  
Try and bully me make you regret it quick  
The only person I allow to push me around is my self  
Body language read it well  
It's written on your face, I'm flipping through your pages  
You don't have to scream and yell  
It's clear to me yeah I can tell  
The front you put on isn't real  
That poker face ain't hidin' nothin' new, the hand you had before the cards  
were dealt

I got what they lack, first in every class  
Never come in last, game is on my back  
Wifey on my lap, she my better half  
Heavy when I step, pockets getting fat

Passion never left, say it with my chest  
Got a problem? Yes  
Meet me in the flesh, you don't cut the check

I don't do the set, not a fan of threats  
Always been direct

Nothing but the best, rarely do the press  
Promise me the world? Not holdin' my breath  
They want me to fail, haven't done it yet  
Stackin' up the bread, thankful cause I'm blessed  
Sharpest in the shed, pen is cutting edge  
I get in the booth, perfect nothin' less  
Key to my success, keep a level head  
We want something fresh?

What you think this is?

What you think this is? Deadly with the raps  
How could you forget? Thought I might of left  
Thought I might of quit, thought I hung it up  
Thought I, think again, petty that depends  
What's the latest trend? I don't have a clue  
I don't follow them, they just follow me

Keep 'em on the edge, keep 'em on they toes  
Keep 'em wondering, keep 'em wanting more  
Eating out my hand, don't look at the score  
Don't look in the stands, focused on my goals

Execute the plan, beat me at my game  
Never not a chance, walk you through my pain  
Show you who I am, don't care what it pays  
Loyal to my brand, foot is off the breaks  
Steppin' on the gas, no one at my pace  
Catch me if you can

Far from done got so much left to give you  
Not the man I was that person detrimental  
2020 me could never hold a candle  
To the present day me standin' here before you  
Overstep destroy, you give up can't afford to  
Keep my standards high ain't changin' that for that no one

Digging deep still got the hunger press record ya  
Hear it in my voice can't let the fame and fortune  
Get the best of me see clearly what's important  
Not impressed with me? Ain't looking for endorsements  
Dropping masterpieces left and right ignore the  
Hate life testin' me passin' with flying colors

Always been unique, can't be no dime a dozen  
I take pride in this won't catch me cuttin' corners  
Have no tolerance for ignorance, I heard ya  
Lost your confidence in me this should restore it (Pandemonium)
