

# PRIDEFUL

NF

Woah-oh  
Ooh, ooh  
Oh-oh, ooh  
Ooh  
Yeah

Feels like I work my hardest when I'm at my lowest  
Even unhappy people can have happy moments  
Even small circles fall when the people you chose are  
Lookin' at you like you owe 'em that money you're grossin'  
Brief seconds that impacted my life, on a huge scale  
Weigh 'em like what's wrong and what's right  
Predictions I predicted often arrive  
Like they own a place, and suffocate the areas that I thrive  
Had some disagreements  
Business model got some cracks, that's your biggest weakness  
Way before I got involved, you knew that ship was sinkin'  
So tellin' me to dive in water you won't dip your feet in  
Tends to make me question you for lots of reasons  
Keep twistin' my words, you got some courage, I applaud you  
Tables, they turn, but was it worth what it cost you?  
Watch and observe, lot of concerns in my heart, still  
Angry and hurt, got what you earned bein' prideful

Prideful (Yeah), prideful  
Takin' what you need, then blame it on me, man  
That's so prideful, ayy, prideful  
Callin' me conceited, oh, that's how you see it  
Well, that's so

That's so shameful  
Guess that's what I get for bein' faithful  
Oh, you think I'm soulless 'cause the bank's full?  
Yeah, oh, you think I'm heartless 'cause I made dough?  
Yeah, that's so painful  
Didn't know what you was doin' on the down low  
Yeah, still you out here actin' like it's my fault  
Yeah, I ain't never said I was an angel, ah no  
I know myself enough to know what I need  
Showed your true colors, I don't like what I see  
Story keeps changin', I know what that means  
Know what that means, I know what that means  
How'd you go from bein' that somebody I believed  
Into bein' someone doubtin' me behind the scenes?  
Can't forgive a sorry that I ain't ever received  
I mean least you coulda done was gave me an apology  
But you're so

Prideful (Yeah), prideful  
Takin' what you need, then blame it on me, man  
That's so (That's so), prideful, ayy, prideful  
Callin' me conceited, oh, that's how you see it  
Well, that's so (That's so, that's so)  
(Callin' me conceited, oh, that's how you see it)  
(That's so, that's so)  
(Callin' me conceited, oh, that's how you see it)  
(That's so, that's so)

Woah-oh  
Ooh, ooh  
Oh-oh, ooh  
Ooh
