What was so hard back then?
I only tried to move forward
I wasn't okay at all
But the past times
Sounds like a joke baby
So I'm shutting my mouth and run & run

With you in my arms
What was so sad?
I laughed then cried then laughed again and sang a song

It was so hot between us back then
Those shining moments, those memories
With you, who I loved
All the precious memories
I'll keep in my heart forever

I look back but you won't come
It's not hard at all
I remember those times so I can smile
I just want to be happy
Now I won't act like I'm ok
When I'm sad, I'll cry all I want
Because it will all remain with me
Just like those times
I remain just as I am

You held my hand
As if you had a lot to say
As you laughed then cried then laughed again and sang a song

It was so hot between us back then
Those shining moments, those memories
With you, who I loved
All the precious memories
I'll keep in my heart forever

Don't forget this
Just as you are
If you remember me
Smile for me

Even if we meet some time later
I hope we won't change

It was so hot between us back then
Those shining moments, those memories
With you, who I loved
All the precious memories
I'll keep in my heart forever

Don't forget this
Just as you are
If you remember me
Smile for me

Don't forget this

Just as you are
If you remember me
Smile for me
