You pulled me, saying you wanted to see the stars  
At once, I placed the moonlight in my eyes  
Every time I look up in the sky  
There's not a single star  
I won't leave you alone  
Don't let that moon get lonely

You pulled my hand, saying you wanted to see the stars  
We sat on the rooftop at sunset  
Every time I look up in the sky  
There's not a single star  
It's alright, you're my universe, shine bright for me

If these words in this song  
Can comfort you, I'll grab a pen  
Instead of provoking words  
I'll say with genuine words, all day  
You waited for me, like a puppy rather than a cat  
Why were you so sad all day?  
You're the most special on this star  
I'm sure you didn't even know

You want some more  
Why do you try to lock yourself up?  
You want some more  
Sky is nothing to believe

You pulled my hand, saying you wanted to see the stars  
We sat on the rooftop at sunset  
Every time I look up in the sky  
There's not a single star  
It's alright, you're my universe, shine bright for me

Hey, sometimes  
When you act all heavy  
I can't figure out how to comfort you  
Like a lost star  
You're the one who pulls me  
You're floating around like a sky that lost its star

The path we took is like a constellation  
Let's follow that path  
Remember me

You want some more  
Why do you try to lock yourself up?  
You want some more  
Sky is nothing to believe

You pulled my hand, saying you wanted to see the stars  
We sat on the rooftop at sunset  
Every time I look up in the sky  
There's not a single star  
It's alright, you're my universe, shine bright for me

Girl I don't know why I'm leaving  
Girl I don't know why, tell me again from the beginning  
Girl I don't know why I'm leaving  
Girl I don't know why

You pulled my hand, saying you wanted to see the stars  
We sat on the rooftop at sunset  
Every time I look up in the sky  
There's not a single star  
It's alright, you're my universe, shine bright for me

I tried to look for something like you  
I tried to pull you

Every time I look up in the sky  
There's not a single star  
It's alright, you're my universe, shine bright for me
