Ängie

I won't forget my fake friends
How people called me psycho
La la la-la, la la la
La la la-la, la la la
Asking to get my rocks off
Come pick my cherry blossom
La la la-la, la la la
La la la-la, la la la

Smoking my weed in the window
Hide from the cops
Smoking my weed in the window
Hide from my papa

18, in the dark with the lights on
18, can't believe where the time's gone
18, in the dark with the lights on
Someone, tell me where the time's gone, now
Tell me where the time's gone, now

I skipped school, I'm too cool
Stay drunk with the locos
La la la-la, la la la
La la la-la, la la la
I need my speed to get off
Kiss me and take my clothes off
La la la-la, la la la
La la la-la, la la la

Smoking my weed in the window
Hide from the cops
Smoking my weed in the window
Hide from my papa

18, in the dark with the lights on
18, can't believe where the time's gone
18, in the dark with the lights on
Someone, tell me where the time's gone, now

Never had to play in bars
Dreaming of the day we're stars
Taking what we want, it's ours
Drunk and breaking into cars

Smoking my weed in the window
Hide from the cops
Smoking my weed in the window
Hide from my papa

18, in the dark with the lights on
18, can't believe where the time's gone
18, in the dark with the lights on
Someone, tell me where the time's gone, now
Tell me where the time's gone, now
