

Dangerously

Angie

January 1st

You know I never been this high
You know just how to amplify
You know, your head against my thighs
You know how much I sacrifice
I know just how to please you now
I know that we just fit somehow
I know that your words are your vows
I know you'll never say goodbye

Look how you went and saved me
I know you'll never break me
You popped me like ecstasy
I love you so dangerously
Look how you went and saved me
I know you'll never break me
You popped me like ecstasy
I love you so dangerously

Dangerously
I love you so dangerously
Dangerously
I love you so dangerously

You know, I just wanna be loved
You know I love you
And I know you love me
So, let's just live and love
Yeah, let's do that

Baby, take off all your clothes for me
I wanna see what's underneath
And kiss your skin, I'm on my knees
Your weight on me, I want your heat
Hold me close, don't ever leave
Take me to space and make me live
It's kinda hard to even believe
But I found God in you, baby

But I found God in you, baby
But I found God in you, baby
But I found God in you, baby

Look how you went and saved me
I know you'll never break me
You popped me like ecstasy
I love you so dangerously
Look how you went and saved me
I know you'll never break me
You popped me like ecstasy
I love you so dangerously

Dangerously
I love you so dangerously
Dangerously
I love you so dangerously
