

Numb

Ängie

You've heard it all before
They tell you you're the one
And that you will be fine
But we will never be

And that's why we go numb
Go numb, go-go, go numb
And that's why we go numb

Go numb
Go-go, go numb
Go-go, go numb
Go-go, go numb

I heard it all before
You tell me I'm the one
You got me on the floor
But we will never be
And that's why we go numb
Yeah, that's why we go numb
Go numb

Oh, I heard it all before
I've seen it my mind
I see it all the time
Restless
Oh, I heard it all before
I've seen it my mind
I see it all the time

And that's why we go numb
Go numb
Go-go, go numb
And that's why we go numb
Go numb
Go-go, go numb

And that's why we go numb
We follow and we fall down
That's why we go numb
We search until we loose what we got

There's always one more last time in your mind
Never enough for you, I know
It's the cold that lingers inside us
Always on the run from it, no love
There's always one more last time in my mind
It's the way you fucked me or your smile
Or that you are funny, can't decide
You're making my eyes gloomy, but that's fine

And that's why we go numb
Go numb, go-go, go numb

And that's why we go numb
We follow and we fall down
That's why we go numb

We search until we loose what we got
That's why we go
