

Play Boy

Ängie

You're creeping on me like a shadow
Coming closer
All I know is that I want you more
Push me hard against the wall
Make me shiver, make me scared
Leave my skin all sore

You don't have to say a word
Hands hotter than hell
Make me forget about the world
Release me from this spell

Bruise me, choke me, mi amore
Taste me, hold me, like never before
Bruise me, choke me, mi amore
Taste me, hold me, like never before
Play boy, play boy

You shoot me down in cold blood
This is something I can't win
But I'll try for sure
Give me all you got and more
I'm a pyro for your fire
Fuck me on the floor

You don't have to say a word
Hands hotter than hell
Make me forget about the world
Release me from this spell

Bruise me, choke me, mi amore
Taste me, hold me, like never before
Bruise me, choke me, mi amore
Taste me, hold me, like never before

Bruise me, choke me, mi amore
Taste me, hold me, like never before
Bruise me, choke me, mi amore
Taste me, hold me, like never before
