

See Through

Ängie

January 1st

Late nights
Staying up for another life
And you're high
I'm drunk as fuck and I'm getting tired

Got the E, kicking in made a monster outta me
Screaming loud, heard your sounds
Now we're fighting over trees
Round after round, now your punches hitting me
Kicking hard, went too far, yeah our love is killing me

You say you hate me, but I hate you
Neon lights, pretty pills, you look see through
What the hell has our love turned into?
What the hell has our love turned into?

Faded
You're making out with another one
Hatred
Don't even care 'cause I'm fucking done, yeah

Got the keys to your car, now I'm calling up your ex
And she's bi just like me, and I know she's up for sex
Break your heart, baby boy, now I'm feeding off your rests
Sweet revenge, play pretend I'm a demon on your chest

You say you hate me, but I hate you
Neon lights, pretty pills, you look see through
What the hell has our love turned into?
What the hell has our love turned into?
You say you hate me, but I hate you
Neon lights, pretty pills, you look see through
What the hell has our love turned into?
What the hell has our love turned into?

You say you hate me, but I hate you
Neon lights, pretty pills, you look see through
What the hell has our love turned into?
What the hell has our love turned into?
You say you hate me, but I hate you
Neon lights, pretty pills, you look see through
What the hell has our love turned into?
What the hell has our love turned into?
