

# Spun

Ängie

Avoid eye contact, you want it, I know it's a fact  
Yeah, you want that snatch but I am moving too fast  
Every morning violet sky breaks up the ice  
Living on them lies, my perfect paradise

I smoke it, I snort it, I roll it, I love it  
I buy it, I pop it, I'm on it, I love it

I'm spun, hit me up, light me up, then we can go for the crime  
I'm spun, candy eyes in the night, babe, you might like my vibe  
I'm spun, put a line on the time tracks, you stay on my grind  
So spun, so spun, so spun

I got company, borderline disorder, that's me  
Manic energy, can't you see I'm living the dream  
Every morning violet sky breaks up the ice  
Living on em' lies, my perfect paradise

I'm spun, hit me up, light me up, then we can go for the crime  
I'm spun, candy eyes in the night, babe, you might like my vibe  
I'm spun, put a line on the time tracks, you stay on my grind  
So spun, so spun, so spun  
I'm spun  
I'm spun  
So spun, so spun, so spun

I smoke it, I snort it, I roll it, I love it  
I buy it, I pop it, I'm on it, I love it  
I smoke it, I snort it, I roll it, I love it  
I buy it, I pop it, I'm on it, I love it

I'm spun, hit me up, light me up, then we can go for the crime  
I'm spun, candy eyes in the night, babe, you might like my vibe  
I'm spun, put a line on the time tracks, you stay on my grind  
So spun, so spun, so spun  
I'm spun  
I'm spun  
So spun, so spun, so spun
