

Come Around And Love Me

Jalen N'Gonda

Please, give a sign
I am yours, and you are mine
Don't keep me guessin' about others before

Oh, come 'round and love me
Keep this night in the everlight

Oh, I know you're worryin' about givin' us a try
That's why I'm sayin'
There's no use to bat an eye

Oh, come around and love me
Keep this spark in the pressure glass
Oh, oh, oh

Come around and love me

Yeah, baby, don't worry about tomorrow's open hand
Just as the day will be soon a distant past

Why don't you come around and love me?
Keep this spark in the pressure glass
Oh, come around and love me
Keep this night in the everlight

Oh, woo
Oh, babe
Oh, come around and love me
