

# Holler (When You Call My Name)

Jalen N'Gonda

You know you make me wanna holler  
When you call my name  
Holler and it starts a flame

Hold me tight  
And treat me right  
Don't you never, never, never let me go  
Say you love me  
Put no one above me  
Darling, oh it thrills me so

You know you make me wanna holler  
When you walk on by  
Holler, my oh my

The way do  
The things you do  
I can't never, never, never get enough  
Say you want me  
Put no one above me  
Darling, the feeling is so fine

Yes holler, when you call my name  
Yes holler, and it starts a flame

Hold me tight  
And treat me right  
Don't you never, never, never let me go  
Say you love me  
Put no one above me  
Darling, you know what to do

Yeah, holler when you call my name  
Holler it starts a flame  
Hoo, holler when you walk on by  
Holler my oh my

When you walk on by  
My oh my  
When you walk on by  
Say my oh my  
When you walk on by  
My oh my  
When you walk on by  
Say my oh my  
When you walk on by  
My oh my...
