

Averages

Nic D

Yeah

Yeah, yeah

I've been on the beach, feel different when the bag hit us
We gon' get it one day, that's a lot of averages
Runnin' into Monday, blinkin' and it's Sunday
Baby, I've been workin', yeah, show me the money
I've been on the beach, feel different when the bag hit us
We gon' get it one day, that's a lot of averages
Runnin' into Monday, blinkin' and it's Sunday
Baby, I've been workin', yeah, show me the money

I put food on the same table the script was gettin' flipped on
Music makin' money, makin' sure the lights are switched on
Back turnin' the page and back earnin' a wage
The contract's on the back burner, last one to get played
But first pick for the game, hmm, yeah
I tried skippin' the fame, but it come with gettin' a name
Tried skippin' the fame, but the bag weren't hittin' the same (Ching)
Had to hurdle the gate, it's a, yeah, it's a
Dial-burner, it's two steps at a time
A real ride-surfer, I'm just blessed for the time
I'm truly a dime and I feel the pressure to shine
I'm just stepped on what's mine, yeah

I've been on the beach, feel different when the bag hit us
We gon' get it one day, that's a lot of averages
Runnin' into Monday, blinkin' and it's Sunday
Baby, I've been workin', yeah, show me the money
I've been on the beach, feel different when the bag hit us
We gon' get it one day, that's a lot of averages
Runnin' into Monday, blinkin' and it's Sunday
Baby, I've been workin', yeah, show me the money

Got a lot to show for it, not a lot to owe for it
Babe, I did it my way, never did the most for it
Kept it lowkey too, transparent, see-through
I want this, I need you, a friend's gotta eat too
How we split the pie up is how we run the business
How we tie the tie up is why we look delicious
Property to buy up, leave it to our kids' kids
Love to the Messiah, it's why we go the distance

I've been on the beach, feel different when the bag hit us
We gon' get it one day, that's a lot of averages
Runnin' into Monday, blinkin' and it's Sunday
Baby, I've been workin', yeah, show me the money
