

Better

Nic D

Leybeats, this go crazy
100

I sleep better, knowin' that you're there when I get up
Hold it down, no, I won't let her
That's sublime, and I feel it all the time
Yeah, I feel your body temperature in waves
It gets a little hotter, yeah, but then it fades
And I sleep better

I feel like a kid again
Maybe a little less innocent
I'ma treat your body like an instrument
Play a little bit of that lick again
Hold up
Now I'm sippin' on a bottle of hard truth
Wear somethin' you won't see my scars through
You say that you love me but it's just a phrase
That gets placed when you got nothin' else to say

And I sleep better, knowin' that you're there when I get up
Hold it down, no, I won't let her
That's sublime, and I feel it all the time
Yeah, I feel your body temperature in waves
It gets a little hotter, yeah, but then it fades
And I sleep

We been vibin' all night but then you gon' post the photos, nah
I just wanna be there with you, I'm afraid of FOMO, yeah
Tell your roommate you ain't comin' home
Say you had to stay for one more song
Just when I thought my luck was gone, gone, gone

I sleep better, knowin' that you're there when I get up
Hold it down, no, I won't let her
That's sublime, and I feel it all the time
Yeah, I feel your body temperature in waves
It gets a little hotter, yeah, but then it fades
