

# Big Dawg

Nic D

They try to stir up all the drama  
I just hop on a saddle, ride into battle  
Holy mackerel, that kid spit like tobacco  
You need a palace, need a castle  
Need a tale you could tatttle  
You need to gossip little rascal  
Need a price you could haggle  
Word, triple word, I ain't know it was scrabble  
This ain't random, ain't a raffle, ain't a time to be bashful  
This ain't no "can't I" rap, this anti cap in a capsule  
I'm beside myself, I'm a shadow

Big dawg  
Big dawg  
Gotta eat  
Like I'm Rick Ross  
We lost  
You a sheep  
Man I'm Big Sean  
Finally famous  
A machine  
Man I'm ticked off  
Little raw, little me  
Like a

Big dawg  
Gotta eat, eat  
Gotta e- eat  
Rick Ross  
(Woof, woof)  
You a sheep  
(Woof)  
Big Sean  
Finally, finally, finally famous  
Man I'm ticked off  
Ticked off  
Little me

Let's have a show of hands  
Anyone who see a puppet  
Go ahead, lock your phone  
And you start to see it coming  
Go ahead, bring it back  
Round back like a mullet  
Where you at? Give me two  
Get your attitude adjusted  
Throw a F in the chat  
Now you spaz  
Now you done it  
Go and laugh  
Alt-tab  
But it had the repercussions  
Everything you said about me  
Sounded like a bad assumption  
Bouta pop off like a button  
I don't need no introduction  
Man I'm

Big dawg

Shout out to the symbol, got me feeling like a capricorn  
I ain't even flashy, man I'm saggy with a paddock on  
Homie what you doing? Vibes wrong like it's Babylon  
People start to talk, I cut em off right there  
I see there intentions, I done lost some friends  
Hit it back but not tomorrow, they gone like trends  
I know way too many people tryna ball like this  
Yeah
