

Bite The Bullet

Nic D

100

Ley beats, this go crazy

Yeah, yeah, yeah

The devil in the details (details)

Dirt under my fingernails, I eat well

50-50 shot, in my favor

Hit me for the sauce, I gave 'em a little flavor

I told you, told you so

Bite the bullet all for show

I told you, told you so

Bite the bullet all for show, I-

It was gold mines

And all I know is overtime

And over time it took a toll and took over mine

All I saw was gold mines

2022 O' five

I don't need your co-sign

I'm big chillin', I'm outside feelin' like somebody else

I step to the plate with the swagger of where I'm at

Still a single little swing of the bat, it's gone

I told you, told you so

Bite the bullet all for show

I told you, told you so

Bite the bullet all for show, I-

Over again

Over again

Over again

Over again

I say, your guess as good as mine

(Yeah, and whatcha think it was?)

I say, your guess as good as mine

(Yeah, and whatcha think it was?)

I told you, told you so

Bite the bullet all for show

I told you, told you so

Bite the bullet all for show

I'ma need your therapy

I'ma need your therapy, yeah

I'ma need your therapy

I'ma need your therapy, yeah
