

Built Different

Nic D

Baby it don't seem to phase me
We keep goin' and goin' and goin it's golden
Baby they keep trying to sway me
I guess they don't know where we goin'
Thought they would notice that we
Built different
That we still itchin' for that real feeling
Yeah that real feeling, yeah
Baby yeah Baby yeah Baby yeah Baby yeah

I thought you was gon' hit me for the race
I thought I was gon' see it on your face
I thought you was gon' bring it up late
That's why I keep it on me in case
What I keep on me? Mmm that grace
Why they speak fondly? Mmm can't say
Words look scrawny, they hold no weight
That's why I speak strongly and hold my faith
Got a role, I thank
It shows on my face
They foldin' in place
I told em I can't
Road don't look safe
With holes in your tank
You rollin' in place
I'm goin' at my pace

Baby it don't seem to phase me
We keep goin' and goin' and goin it's golden
Baby they keep trying to sway me
I guess they don't know where we goin'
Thought they would notice that we
Built different
That we still itchin' for that real feeling
Yeah that real feeling, yeah
Baby yeah Baby yeah Baby yeah Baby yeah

What's 80 hours a week
To somebody who want it more
To someone who willing to
Pick that dirt off the floor
Willing to look like a scroll
Pass on that Christian Dior
Pass on that trip to the club
Then they go out and get it
Don't make excuses, take action
Down to the nitty gritty
And then make moves for your passion
I told em, "Baby, it don't seem to phase me"
Baby, they keep tryna sway me
Baby it don't seem to phase me
We keep goin' and goin' and goin it's golden

Baby it don't seem to phase me
We keep goin' and goin' and goin it's golden
Baby they keep trying to sway me
I guess they don't know where we goin'

Thought they would notice that we
