

Confidence

Nic D

So much confidence
Feel it in my hands, I gotta breathe
So much confidence
This was like a lesson I'ma teach

Spoke to God, told me "stay in the truth"
Patience wasn't lying by the fools
Focus, don't know rules again
But Jesus only wants a friend
My heart is dreaming cause my dreams are really moving me
Screaming through these seasons cause this change is nothing new to me
Remember when you told me in my life cause you were ashamed of me?
Guess I'm more than what you thought of me
Bring the beat back

So much confidence
Gotta breathe
So much confidence
Just wait and see
So much confidence
Gotta breathe
So much confidence
Just wait and see

[?] I done some more people hearing it
I need y'all to take me serious, I guess I come with experience
Everybody after a 'mil, I put that on cafeterias, period
I pulled through in a chariot
They don't like truth, they bury it
Follow my God, I just show 'em love
Never know who to trust but nobody does
Feeling like Tarzan, rapping like-nah, I ain't gon' say it
They don't expect it, they gotta respect it
I ain't making music for your homies at the coffee shop
You should be on [?] by the way you like to talk a lot
Judge me by my cover, you would think that this an orthodox
Pass the ox, wow!

So much confidence
Gotta breathe
So much confidence
Just wait and see

Things that I can't say
Talking with a band-aid
[?] robots
Hmm, but I stay [?]
I'm just tryna sell out [?]
Labels calling cause they wanna see 'em
Back when I would hustle sending DM's
Y'all would act like y'all don't even see 'em
Tell 'em "no" but never give a reason
That's why I told 'em they don't need 'em
Pray about it, tell me how you feeling
Signing nothing 'til you guarantee 'em
Focus, purpose, lead us, Moses
[?], tightrope, balance my goal

Y'all repellents energy got me [?]
[?] hit the ball, walk in faith
Hey, bring the beat back

So much confidence
Gotta breathe
So much confidence
Just wait and see
