

How many likes until you like yourself?
I'm just curious, I'm just curious
How long have you wanted to be someone else?
I'm just curious, I'm just curious

You don't need no affirmations
From people you don't even like
Ain't no need to be jealous of all of them
Thinkin' that it's right

How many likes you got?
What's your social status
Wait no, followers
Yeah I told it backwards
Phone buzz, up rungs on the social ladder
But it doesn't matter
We try to coax the algorithm, because we know the patterns
Anti-social platforms have got us so distracted
You at home alone about to post a caption
To people you don't even know
In hopes it makes you happy

You don't need no affirmations
From people you don't even like
Ain't no need to be jealous of all of them
Thinkin' that it's right

You seem lost
I'm just curious
You seem lost
I'm just curious
I said ladadada
Euphoria
Ladadada
Euphoria
