

# Dead Battery

Nic D

One hunnid

I got a dead battery  
It's in my favorite watch  
But I guess that's the price you pay  
When you're tryna watch the clock

I learned that you can't freeze time  
It don't pay no mind  
To anybody who try to get in its way  
I learned that you can't read minds  
Please don't waste your time  
Ever tryin' to, never, no way

I learned love's a wild ride  
Can take you by surprise  
Will try ya on for size  
Will chew ya up and spit you back out  
Baby, hold on tight  
Try to make it out alive  
'Cause on the other side  
It spins you 'round until you black out  
But it's worth it  
It's just the way I feel when I talk to you, baby  
You make me nervous

I learned that you can't freeze time  
It don't pay no mind  
To anybody who try to get in its way  
I learned that you can't read minds  
Please don't waste your time  
Ever tryin' to, never, no way
