

Duo

Nic D

(One hunnid)

She said, "Take a pic of me vibing
Outside with the streetlight shining"
Oh yeah baby, follow my lead
She just wanna document the nights like these

You're beautiful, just so you know
On your own, but we better as a duo
I'll go anywhere you go

Ay, she just wanna flaunt a little something
So I went and bought a little something, yeah
We got 'em dirty kicks, we were kids
Per the courtesy of learn and live, it ain't permanent
Still gon' hurt a bit, ooh, babe
Turn your hips, that's how you lure me in
And always work the early shift
Might as well, I can tell, she said "Babe, them pictures ain't gon' l
ike themselves"

She said, "Take a pic of me vibing
Outside with the streetlight shining"
Oh yeah baby, follow my lead
She just wanna document the nights like these

You're beautiful, just so you know
On your own, but we better as a duo
I'll go anywhere you go

I wanna keep you safe
I don't wanna taste, I want the whole thing
Difference 'tween losing a little grip and losing faith
It don't matter how you start it, I seen it go every way
Ain't nobody perfect, I'm bound to make a mistake
Yeah, we do a fly-by legally
Everybody know that's how we come so easily
Yeah, it's just one of them nights
Where she look good and she know it

She said, "Take a pic of me vibing
Outside with the streetlight shining"
Oh, yeah, baby, follow my lead
She just wanna document the nights like these

You're beautiful, just so you know
On your own, but we better as a duo
I'll go anywhere you go
