

Face First

Nic D

100Graham

We didn't even have to talk, she said it all with her eyes
Oh, she's a simple girl, she's happy with a coke and some fries
Roll out of bed, she's up for anything and down for the ride
I'm happy she's mine

I hope it isn't face first when I fall
I just know I feel safer in your arms
Just do me a favor, don't break my heart
Don't break my heart

Laid back in a hot tub talking, soaking in the vibe
Three nights in a hotel, locked in, view is ocean side
Good thing we a good thing, babe, let good things multiply
And I know why, yeah I know why (Come on)
It ain't 'bout where you been, it's 'bout where you go in life
We worked ten years, it looked like success was overnight
You've come right face to face with that fear and you know why
It's what you want, 'cause what you want is on the other side

We didn't even have to talk, she said it all with her eyes
Oh she's a simple girl, she's happy with a coke and some fries
Roll out of bed, she's up for anything and down for the ride
I'm happy she's mine

I hope it isn't face first when I fall
I just know I feel safer in your arms
Just do me a favor, don't break my heart
Don't break my heart
I hope it isn't face first when I fall
I just know I feel safer in your arms
Just do me a favor, don't break my heart
Don't break my heart
