

Fandango

Nic D

Everybody wanna dance
One dance one tango
Makin hits out of a van
Make a movie, fandango
I don't think you wanna dance
I can take a man's ankles
Thunderstorm then bam
We just turn it to a rainbow

Everything gettin'
Little different that's the main difference
Keep the main thing the main thing
We don't ever put no change in it
Little coach I need [?]
Bench cool I'm entertaining it
Just not where I'm aimin' it
Get the work man I'm layin' in it

Everybody wanna dance
One dance one tango
Makin hits out of a van (minivan)
Make a movie, fandango
I don't think you wanna dance
I can take a man's ankles
Thunderstorm then bam
We just turn it to a rainbow

Liftoff, tick tock, not the app, but the wristwatch
Big dogs

Google Maps on your phone how you get lost
One cross then I'm gone, tear the rim off
Boy play Beethoven
Try to find out what you worth like a blank token
Do a couple things, do the same motions
Then you back boy like the bank's open
Coach gettin' bored cause you can't coach 'em
Give more yeah that's the dang slogan
Shot's wet no twos like [?]
Water drip drip but the veins frozen
Kid don't miss, man the game broken
Gotta foul him cause they can't hold him
So much plastic on your chain
Lookin' like a man tryna save oceans

Dance
One dance one tango
Makin hits out of a van (minivan)
Make a movie, fandango
I don't think you wanna dance
I can take a man's ankles
Thunderstorm then bam
We just turn it to a rainbow
