

Genie

Nic D

One hunnid

Found me a genie
He said you only get one wish
If I only got one
I want it just like this
Yeah, baby just like this
Yeah, baby just like this
Yeah, baby just like this
Yeah, baby just like this

It's me and you in the bedroom
Got some business to attend to
But you're the only business I attend to
Hands on your hips, I drive
Hand on your hips, that's ten and two, I'm telling you
You and what I want looking identical
Treat the Honda Civic like the Bentley Coupe
I know how to pull you out of any mood

Drive me a line, I'm hooked on you
Never got to ask how it looks on you
I'm your man, your wish is my command
Obey you little bit like a lamp went poof

Found me a genie
He said you only get one wish
If I only got one
I want it just like this
Yeah, baby just like this
Yeah, baby just like this
Yeah, baby just like this
Yeah, baby just like this

Always thought I'd question it but never once
The dog is off its leash and I just let him run
Ooh, we know it's true, you could have anyone
When it's said and done, I'm the better one
Kiss goodnight, shed new light
Thought I had an answer, but I bet you're right
Treat you right, bet my life
I could take you anywhere, to brand-new heights
Heights, heights, heights, heights, heights, heights, heights, don't you know it's just the
Heights, heights, heights, heights, heights, heights, heights, heights
All we ever wanted was nights like this
All we ever wanted was, all we ever wanted was
All we ever wanted was nights like this
All we ever wanted was, all we ever wanted was

Found me a genie
He said you only get one wish
If I only got one
I want it just like this
Yeah, baby just like this
Yeah, baby just like this
Yeah, baby just like this

Yeah, baby just like this
