

Heaven With You

Nic D

(I gotta figure out what goes right there)

My day's going like hell
But it's heaven with you
It ain't going that well
But it's better with you, with you, you, you
My day's going like hell
But it's heaven with you
It ain't going that well
But it's better with you, with you, you, you

Like an exclamation point you on one
You could never be outdone by anyone
I could never be caught chasing the breadcrumbs
I get it done, it's never the bare minimum
Barely said, the dress is all red
Let me get the door 'cause chivalry ain't dead
Let me spread the word, I'm taking it to the press, baby
Hard to be upset, baby

My day's going like hell
But it's heaven with you
It ain't going that well
But it's better with you, with you, you, you
My day's going like hell
But it's heaven with you
It ain't going that well
But it's better with you, with you, you, you

It's better with
(You) you you, you you, you
(You) you you, you you, you
(You) you you, you you, you
You you

You must heard I relish in this
You better catch up boy, I been hot dog
Girl, you hotter than the bottom of my laptop
We just changing out the backdrop, we wasn't there
You kinda, sorta, pretty much always on my mind
You lacking order, chaos and step behind
I'm by the border or okay and I'll be fine
Brought a quarter in case you think you gonna nickel and dime
Tell me, baby
Would you sing real loud?
Would you throw the love around?
Alright, would you tell me that you love me?
Would you leave my side?
Would you look me in the eyes?
Would it be alright?

My day's going like hell
But it's heaven with you
It ain't going that well
But it's better with you, with you, you, you
My day's going like hell
But it's heaven with you

It ain't going that well
But it's better with you, with you, you, you

It's better with
(You) you you, you you, you
(You) you you, you you, you
(You) you you, you you, you
You you
