

Human Cigarette

Nic D

You're a human cigarette
You're no good for me
But still I take a breath
Aw nah, I couldn't see
Don't know if it's the cold
Don't know if it's the smoke
And I'm building up that levy
Yeah, I'm ready let it flow

You're a human cigarette
Puff, puff couldn't pass
Told myself I'm cutting back
Not addicted, just attached
I'm conflicted
Yeah, I gotta have it
I need a kick
I gotta have it
And I need a fix

But the fix I need, don't fix no broken hearts
With these wide open arms
Gave you all I had to give
But baby no cigar
You need a light, I got the flame
Pack after pack, riding a chain
I think the past, should stay in the past
The one thing with facts, is they never change
And I can't get past it
If I don't, I don't
You said I'd manage, but you know I won't
How'd it all go up in smoke?
Feed that flame, gotta tuck and roll
Yeah I've been running from what I know
Huff and puff and I-

You're a human cigarette
Puff, puff couldn't pass
Told myself I'm cutting back
Not addicted, just attached
I'm conflicted
Yeah, I gotta have it
I need a kick
I gotta have it
And I need a fix
