

Invisible

Nic D

I just wanna call
I could say it all to you

But did you put up walls?
Am I invisible?
Take a look at what we did
Take a look behind the mask
Been this way since we were kids
We've been living in the past
Ain't afraid of what I had
It's just [?]
Am I invisible?

Young vibe from the east gon' stay
Moving on from things that don't change
I ain't even keep my things
Seen you over there, seen you cross the room
Cold as polar bears, I won't talk to you
Got your own affairs, got a lot to prove
Guess we going there, guess you not gon' move
Wanna put a hundred on the dash, yeah
Making sure nobody gonna pass you
Making sure nobody gonna pass you
Making sure it's never gonna happen
Better things always come in two's
The only thing I ever want is you
These arguments are always set [?]
Always set for you to never lose

I just wanna call
I could say it all to you

But did you put up walls?
Am I invisible?
Take a look at what we did
Take a look behind the mask
Been this way since we were kids
We've been living in the past
Ain't afraid of what I had
It's just [?]
Am I invisible?

Tell me that you love me
Tell me that you care
I just got a glimpse but you're making it unfair
You've got other options, yeah
But I ain't never just an option
Wanna put a hundred on the dash, yeah
Everything a blur, wanna pass it
You are not the one I wanna pass up
Got a couple things I wanna ask you
Do you see this working?
Am I ever worth it?
Tell me what's the purpose?

Why can't you see me?

I just wanna call
I could say it all to you

But did you put up walls?
Am I invisible?
Take a look at what we did
Take a look behind the mask
Been this way since we were kids
We've been living in the past
Ain't afraid of what I had
It's just [?]
Am I invisible?
