

# Lightning In A Bottle

Nic D

It's just one of those things, ya know?  
It's like uh, you feel it's right there

The work we put in feel like the poster child  
I know my wife feels like it's overtime  
Said that I'd be home at 9  
It's almost 10  
I guess that I was wrong again  
Who wants to be a millionaire?  
I'll phone a friend  
Said it's the blue jeans baby  
That's my final answer  
I'm a tiny dancer  
Ain't your momma teach you, mind your manners?  
Rappers know the boss  
Separate us like the grocery line  
Starin' at the clock like it owe me time  
I've been linkin' up with God  
We got an open line  
Tryna have the tough combos  
With an open mind  
Said Nic get in the game  
Boy you soundin' like a coach of mine  
You got a catch 'em it's the game  
Boy, Pokemon  
It feels weird  
I'm honin' in on what I'm focused on  
Like tryna get 'em sing along  
If they know the song  
I'm just tryna figure out  
Where my emotions gone  
And if I'm doin' the right thing  
With what I'm supposed to want

Lightning in a bottle  
Lightning in a bottle

I got lightning in a bottle  
Chasin' stars, Aristotle  
Gotta leave a good impression  
Gotta watch it, ain't a fossil  
I'm appalled like the apostle  
Had to dive into the gospel  
God knows like a nostril  
My God, thought I lost you  
(Lightning in a bottle)  
I'm cool with people deciding to look right past  
Often it looks like what you want is just that  
It looks like that  
We want we acquire  
We want we acquire  
Then we forget what we have  
Say "woops, my bad"  
People tryna grow careers off of arguments  
Turn beef into a cash cow  
Easy to see through a glass house  
When you form a web of lies it's easy to track down

Don't be a hypocrite  
Don't just be nice in situations you where think you can benefit  
You got the bar set low, like the limbo  
I'mma start calling y'all Carl cause your Winslow  
People sleepin' on my bars cause they ain't punchlines  
They just real life so when they live it, it'll hit them sometimes  
They just like me in that box, ya know? Keep me confined  
I'm hungry for it and I'm tired of waiting like the lunch line  
But God's time has no flaws  
If you learn something it's no loss

Means eventually we go, yard  
It's just probability  
Should'a never told me I had a chance  
So there was a possibility  
God willingly gave us free will  
Get full or be filled  
Be still and know
