

## Look Easy

Nic D

All those things you said, wish I could delete  
Like a melody in my head, it stays on repeat

Did you lie to me, lie to me, lie when you said that you need me?

'Cause it was hard on me, hard on me, hard to watch you leave me

But you made it look—

Uh, way too easy

Threw a cold shoulder, need a hoodie and a beanie

Freezing, brr, anything you wish, I'm a genie

Heard talk cheap, but you gave it as a freebie

You can't see me, Stevie, wonder if you need me

Wonder if we ever were together or just pieces

I'm pickin' up the (Mm-t-ah), but I'm breathin'

I thought I could trust you

Did you lie to me, lie to me, lie when you said that you need me?

'Cause it was hard on me, hard on me, hard to watch you leave me

But you made it look—

Easy

Yeah, you made it look easy

You used to say that you would rather die for me

But that's a lie, that's a lie, shorty

There ain't no forgiveness in your eyes, shorty

Worst part is you didn't even say goodbye, shorty

You know what you did was wrong

Like a Forceum, girl, you got gone

Like a horror scene, didn't wanna watch

But I did and it hurt to hear

All those things you said, wish I could delete

Like a melody in my head, it stays on repeat

Did you lie to me, lie to me, lie when you said that you need me?

'Cause it was hard on me, hard on me, hard to watch you leave me

But you made it look—

E-E-Easy

Yeah, you made it look e-e-easy

E-E-Easy (Did you lie to me, lie to me, lie when you said that  
you need me?)

Yeah, you made it look e-e-easy ('Cause it was hard on me, hard  
on me, hard to watch you leave me)
